Education

VIT Bhopal University , Bhopal, MP <i>M.Tech in Artificial Intelligence and Data Science</i> CGPA: 8.0/10	2024 – 2026
Vellore Institute of Technology , Vellore, TN <i>B.Tech in Engineering</i> CGPA: 8.11/10	2020 – 2024
Narayana Junior College , Kurnool, AP <i>12th Standard – Board of Intermediate Education</i> CGPA: 9.48/10	2017 – 2019

Projects

Pixel Art Generator with DCGAN Built a DCGAN using TensorFlow/Keras to generate 16×16 pixel game sprites. Achieved close alignment of pixel statistics (mean 0.38, std 0.72) between real and generated images. Implemented custom training visualizations to compare distributions and track model performance.	May 2025
Agentic AI Trading Agent using Deep Q-Learning Developed an Agentic AI-based trading bot with a custom environment, state-action design, and reward logic. Trained a Deep Q-Network on real stock data to make and evaluate trade decisions for portfolio growth.	January 2025
Leverage Social Media Insights Using NLP Techniques Performed research based NLP analysis of influencer marketing content to gauge audience tone and brand sentiment. Combined several text analytics techniques sentiment, tone, and summarization—with social metrics such as hashtags, mentions, and emojis to uncover more profound trends in social media behavior and perception.	October 2024
YOLOv8 Tooth Detection (OralVis-Healthcare) Trained YOLOv8 on dental panoramic X-rays (32 FDI tooth classes) with label rectification and dataset splits. Fine-tuned pretrained weights and achieved 91 Precision, 89 Recall, $mAP@0.5 = 0.92$ and $mAP@0.5:0.95 = 0.88$.	August 2025
Warren Buffett Portfolio Analytics Dashboard Scraped Warren Buffett's Dataroma holdings using BeautifulSoup and structured the data into JSON. Built an interactive Streamlit dashboard with sector allocation, performance trends, correlation heatmaps, and diversification metrics.	December 2024
Reddit Sneaker Sentiment Dashboard April 2025 Created a Streamlit dashboard for sentiment analysis on Reddit sneaker discussions. Applied VADER for polarity scoring and visualized trends	february 2025

Skills

Programming: Python
NLP: NLTK, spaCy, VADER, OpenAI APIs
Tools/Frameworks: BeautifulSoup, Matplotlib, Tableau, REST APIs, Git, Streamlit, Jupyter, VS Code
Certifications: Fundamentals of Agents - Hugging Face Agents Course, Fundamentals of The LLM Course - Hugging Face

Languages

English (Fluent), Hindi (Fluent), Kannada (Native), Telugu (Fluent), Tamil (Conversational)
